### Search Notes

Examiner RAMACHANDRAN,

The structure of Claim 1 you have requested to search is too broad to run to completion in Registry file so, I couldn't able to do the comprehensive search for this compound. However, I did the structure search for the compound of Claim 2 and used the applicant's compounds Registry number to complete the search.

See attached results.

If you have any questions about this search feel free to contact me at any time.
